3. The following is an examiner's statement of reasons for allowance: The primary reasons for allowance of independent claims 1 and 13 are the inclusion of the system/apparatus limitations and/or method steps for determining the leakproofness of an object having a first cavity, wherein a closed chamber comprising a second cavity, wherein the chamber is arranged to *envelop the object or enveloping the object* (emphasis added) (i.e. completely surrounding the object); employing hydrogen as a tracer gas and employing the particular limitations regarding the pressure inside and outside the cavity and/or chamber recited in the independent claims. None of the Prior Art read on all of the limitations/method steps recited within independent

claims, but most notably, wherein the object to be tested is completely enveloped by an additional chamber. The closest Prior Art reference is US 6,050,133 to Achter et al., however, this apparatus/device employs gas-permeable portions and non-gas-permeable portions and does not teach or employ the specific apparatus and/or method step limitations of the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
